## 2 KILLED AS BUS, LORRY COLLIDE ON CASTLE PEAK ROAD

### AMAZING CRICKET

927 Runs for 18 Wickets at Kettering.

JUPP AND BURROUGH SCORE CENTURIES IN DRAWN GAME.

### ESSEX V. DERBY DUEL.

Yorkshire's Seventh Victory.

London, Yesterday.

Amazing cricket was witnessed at Kettering during a three days' struggle for first innings points. Altogether 927 runs were scored for the loss of only 18 wickets and the match was abandoned as a drawn game when Somerset required only one run to tie the Northants' total. Vallance Jupp, the visiting skipper, played a dashing knock for 163 to enable Northants to compile 464 runs. Faced with this total on an easy wicket Somerset made light of their task and when stumps were drawn at the conclusion of the match, they had failed by only two runs in their fight against the clock.

Another thrilling struggle for first innings points was witnessed at Leyton, where Essex failed by one run to equal Derbyshire's total of 365, to which Smith contributed his third century of the season. Leonard Crawley, a former English amateur golf champion, strove desperately to give Essex the lead with a hurricane knock which realised 138 runs, his second century of the season. Lee, however, got amongst the later batsmen to give Derby the major points.

Yorkshire registered their seventh victory of the season when they entertained Surrey at Sheffield and, with Kent forfeiting first innings points to Middlesex, the champions are now only 10 points behind the Southern leaders. Low scoring featured the match at Nelson where Lancashire just got home to secure major points against deadly bowling by Paine. After a most disappointing season Gloucestershire have at last secured points. At Bristol they led Glamorgan on the first innings to gain five valuable points. Hampshire, who commenced the season in a sensational manner, have fallen away badly, and yesterday they were forced to concede major points to Leicestershire.

Notts found little difficulty in accounting for the All-India eleven even after being dismissed in the first innings for 188 by Amar Singh. Voce, however, placed Notts on sure ground and the county won by 224 runs. A century by Knox, his first in England, enabled the South Americans to force a very creditable draw with Sussex. Jane Langridge distinguished himself in this match by a brilliant all-round display. In addition to scoring 125 out of 328 he claimed 7 wickets for 37 runs to dismiss the visitors for 287.

(Full results and Table on Page 4.)

### LAUSANNE PARLEY MAY COLLAPSE

### FRENCH ATTITUDE HAS STOPPED PROGRESS

### LAYTON PLAN DISCARDED

### PREMIER MACDONALD SHOWS SIGNS OF STRAIN OF ARGUMENT.

Lausanne, To-day.

The sudden hardening of the French attitude, the dropping of Sir Walter Layton's plan to abolish the moratorium and annuities, the prospect of a refusal of compromise by both M. Herriot and Herr von Papen, cloud the future of the European debt settlement and reparations plan.

Meanwhile, Mr. Ramsay MacDonald, British Prime Minister, is shouldering the burden of a mediator. He is striving to effect an agreement between the recalcitrant French and German representatives, and is showing signs of the strain of his labours. Mr. MacDonald is at Lausanne against his doctor's orders.

The interesting plan suggested by Sir Walter Layton which seemed likely, at one time, to secure the support of both French and Germans, has been dropped. It proposed to abolish the moratorium and annuities.

It would have divided the lump sum payment required of Ger-

### RATCLIFFE'S RECORD.

### Century Against Oxford at Lord's

### CAMBRIDGE SCORE 431.

### Hone, 64 Not Out.

London, Yesterday.

At the conclusion of the second day's play in the Oxford and Cambridge match at Lord's to-day the Dark Blues are 235 runs in arrears of the Cambridge first innings total of 431, with six wickets in hand.

A. T. Ratcliffe, who was undefeated overnight with 64 to his credit, to-day reached three figures and thus established a new record for the series of matches which date back to 1827.

Ratcliffe has the distinction of having scored 201 and 124 in the 'Varsity match, a feat which has never before been accomplished. W. Yardley (Cambridge) scored 100 in 1870 and 130 in 1872, and H. J. Enthoven (Cambridge) scored 104 in 1924 and 129 in 1925, but neither batsman has had a double century to his credit.

Ratcliffe, who played in the 1930 Varsity match, but scored only 11 and 9, being bowled in both innings by Ian Peebles, who has since gained Test recognition. Ratcliffe finished up the 1930 season with an average of 20.77 which was considerably better than that of A. G. Hazelrigg, the present Light Blue captain.

Hook Shot Expert. Light Blue batsmen failed and the side was dismissed for 122. This year Ratcliffe has jumped into his best form at the right moment and to-day's century was his fourth of the season. He is an excellent exponent of the hook shot and his off-driving has been the cause of many a reshuffle in the field by the best players in first-class cricket.

(Continued on Page 7.)

### BRITAIN PLANNING EXPORT AIDS.

### Purchase System Is Formulated.

London, To-day.

It was stated in the House of Commons to-day that the Government, after closely observing various clearing house systems in other countries, had been confirmed in their view that any such system would not, on the whole, benefit British traders. It is considered however, that benefit might result from agreements to facilitate use of frozen accounts in foreign currencies for purchase of goods for export.

Endeavours will therefore be made to arrange experimental agreements of this nature with certain foreign countries. Legislation will not be required.—British Wireless Service.

—British Wireless Service.

### FUGITIVE OPENS FIRE ON CONSTABLE SNATCHES OFFICER'S REVOLVER

### CAUGHT AFTER CHASE

While attempting to stop and question a Chinese whom he observed acting in a suspicious manner, Constable Harris, a recruit at West Point Police Station, narrowly escaped death early Saturday morning. Two shots, allegedly fired at him with his own revolver which he suspect had seized, grazed his tunic. The fugitive was later arrested but only after a stirring chase, in which Harris having recovered his gun, fired once at the fleeing man.

(Continued on Page 7.)

### IRELAND SEEKS U.S. MARKET.

### Devalera Asked to Explain.

### OTTAWA BECKONS.

### Heckling in Debate on Late Session.

### CABINET TWITTERED.

Dublin, To-day. The fact that Mr. De Valera has sent a Commissioner to America on behalf of the Irish Free State to investigate facilities and possibilities for the development of an Irish-American trade, was disclosed in the sitting of the House to-day.

Mr. De Valera, questioned on the matter of trade prospects, divulged the information.

Later a motion was introduced that the House should sit all night in order to conclude the current business and enable Ministers to depart for the Imperial Conference at Ottawa. This provoked sharp heckling on the part of the Opposition.

The Hon. Mr. McGilligan, former Cabinet Minister, asked what the Irish Ministers were going to Ottawa for, anyway.

Nevertheless, he added, as the Conference would open with a resolution of loyalty to His Majesty the King, he for one

would gladly stay all night to enable the Ministers to be early for the Ottawa gathering.

Reuter.

### DISTURBANCES IN HANKOW.

### State of Martial Law Almost Exists.

Hankow, To-day. A strict censoring of military news is being enforced here. The correspondent of the Shanghai "Shun Pao" was arrested for sending a telegram concerning military affairs, although the substance thereof had already appeared in the local Chinese Press.

Since Marshal Chiang Kai-shek's arrival, the number of guards have enormously increased and, although official martial law is not being enforced, everyone is stopped in the streets and is liable to be searched after dark.—Reuter.

### COLLOIDAL FUEL TESTS.

### Still Experimenting in England.

London, To-day. Secretary for Mines Foot stated in the House of Commons to-day that it was impossible to estimate the success of colloidal fuel, as it was still in the experimental stage. A scheme adopted by the previous Government for research in low temperature carbonisation and hydrogenation processes for dealing with coal was being continued, but in somewhat modified form, he said.

—British Wireless Service.

### CONVERSION SCHEME SUCCESSES.

### Some Bondholders Sacrifice Bonus.

### THOUSANDS APPLY.

### Redemptions Desired By Very Few.

London, To-day.

Continuing successes of the great Conversion scheme were officially reported to-day. Some holders of 5 per cent. War Loan bonds, while converting, are making gifts to the State. A number of applicants for conversion on the Bank of England register have asked that the 41 per cent. bonus payable to them if they convert their holdings by July 31 next should not be sent to them but be retained by the Treasury as a gift to the Nation.

The Bank of England announces that 50,000 applications for Conversion were received by the first post to-day, making a total to date of 100,000 applications.

The Post Office Savings Bank announces that of the 90,000 applications it has so far received, those desiring redemption amounted to only 6 per cent.—British Wireless Service.

### ANOTHER ATLANTIC FLIGHT COMMENCES.

### Two Airmen Winging Towards Ireland.

Harbour Grace, Newfoundland.

To-day. Two American aviators of the air. Matters and Griffin, co-piloting a biplane, have hopped off from here and are flying towards Ireland. It is still another projected transatlantic flight.

"All going well, word of their safe arrival on the other side should be received within 16 or 24 hours."

The purpose of their flight is not disclosed. It is presumed that it is

for the Hall Mark of a Superlative Product.

## TERRIFIC CRASH NEAR 12-MILE STONE

### TWO FOKIS KILLED; ONE BADLY HURT

### 'BUS PASSENGERS ESCAPE

### IMPACT HURLS VICTIMS OFF TOP OF LORRY.

An appalling tragedy took place on the Castle Peak Road this morning, at the 12½ mile stone, when a heavily laden motor lorry collided with a motor bus, resulting in the death of two Chinese men. Another Chinese was seriously injured.

The name of one of the deceased men is given as Wong Sui, aged 30, a vegetable dealer residing at No. 15, Sheklung Street.

The bus was badly smashed at the side of the driver's seat, but the lorry was not damaged. The load which appears to have struck the bus was scattered all over the roadway.

The accident took place at about 9.15 a.m. near the village of Tai Lam Chung. The motor lorry which was heavily laden with vegetables was coming in the direction of Kowloon, and the bus was proceeding in the direction of Un Long, when rounding the corner near the 12½ mile stone, the lorry appears to have swung out towards the centre of the road. The impact was not direct, but the load hit the bus rending a terrific gash in the side of the latter vehicle, near the driver's seat.

Three coolies who were riding on top of the vegetables were thrown off, and one apparently struck a window in the bus, the impact almost severing his jaw and face. The other victims were also badly smashed, one having his head badly knocked about, whilst the other was suffering from shock and injuries when removed to the Hospital.

None of the passengers in the bus were injured, and the driver and conductor escaped scot-free, as did the driver of the lorry and his companion in the driver's compartment.

There were 10 passengers in the bus when the collision occurred, all men.

Severe Damages. The damage to the bus in addition to the smashed coachwork, included several broken windows, and a damaged window stanchion, which was bent with the force of the body of one of the

coolies on top of lorry.

The three coolies riding on top of the load, were market coolies, the names of the two deceased not being known. The injured man is Tat Sui-lam, aged 24, residing at No. 244, Tai Lam Street, 1st floor, Kowloon.

The first intimation of the accident came to the Police when a

(Continued on Page 7.)

### SHIPPING DISPUTE.

### Mr. Croucher's Reply to Capt. Laurenson.

### STATEMENTS DEFENDED.

(The Editor, "China Mail.") Dear Sir.—It is a matter of regret that Captain Laurenson's letter, in reply to my criticism of the Douglas Steamship Company conditions of service, is based on a statement that did not make. If he will substitute the word "Assets" for "Capital," it will perhaps enable him to display a little more capacity for appreciating the shareholders point of view.

The present value of our ships and investments is about \$800,000 and whether a profit or a loss is made, \$80,000 which is 5 per cent. is allocated annually to the officers' leave, pay, and Pension Fund. Our ships are old and it has not been possible to write them down to present day values, and the future earnings of our company are overruled by the depreciation which must be provided for before any dividend can possibly be paid.

The junk concerned in the Western Fairway mishap, carried, besides the crew consisting of the master, Wong Kam (20), a woman, and three children, four passengers, two elderly men, an aged woman and a girl. They started out with their luggage from the Pine, on their way to Macao, and proceeded in an easterly direction towards the steamer "Yunking," which was due to sail for Macao. (Continued on Page 16.)

### SAMPAN CAPSIZES IN HARBOUR.

### 3 Missing — Feared Drowned.

### ANOTHER SAMPAN CAPSIZES IN GALE.

An elderly man, a woman and a girl, aged ten years, are reported missing, and feared to be drowned, as the result of a passenger junk No. 2961B, capsizing in the Western Fairway of the harbour yesterday morning.

The accident happened at eight o'clock, and simultaneously another passenger boat, whilst journeying from West Point to Yaumati, encountered rough water across the harbour, and overturned. In this instance, everybody was saved, and the luggage recovered.

The junk concerned in the Western Fairway mishap, carried, besides the crew consisting of the master, Wong Kam (20), a woman, and three children, four passengers, two elderly men, an aged woman and a girl. They started out with their luggage from the Pine, on their way to Macao, and proceeded in an easterly direction towards the steamer "Yunking," which was due to sail for Macao. ## ROUND HONG KONG'S CINEMA THEATRES

## OFFICIAL SOURCES.

## "THE SILENT WITNESS"

A different and gripping mystery melodrama, capably enacted, smoothly written and deftly directed showing to-day at the King's Theatre and delighted an audience of large proportion. It is "The Silent Witness", the Fox Film version of the stage success, which thrilled Broadway audiences last season.

All of the characters are clearly and realistically etched and the action reaches a great dramatic climax in the revelation of the stranger of the beautiful wanton for whose death a baronet stands trial to shield him son.

As the baronet, Lionel Atwill, long distinguished on the stage, gives a performance that is, perhaps, the highlight of the picture. This international stage star, who makes his screen debut in the picture, is superb in every line and gesture as the proud English father as he faces the court and is tried for the crime in place of his vaunting and irresponsible son. Having played the same role for more than 200 times on the stage, Atwill enjoyed the advantage of perfection in his lines and lack of self consciousness in action.

The picture was directed by Marcel Varrel and R. L. Houghton from Douglas Doty's screen adaptation of the celebrated DeLeon Cefatian play.

## "CHEATERS AT PLAY"

Noises are more than an annoyance to Hollywood's small fraternity of sound technicians, who with the development of talking pictures, have acquired hearing superhumanly acute.

They have become so able to differentiate between clicks, roars, crashes, rumbles, squeaks, squeals, booms and hope that they can almost distinguish between the sound made by a dropped pin on a ship's deck or an barroom floor.

There are, for example, one thousand nine hundred and forty-three different sounds catalogued and on file in the sound film library at the Fox Films Corporation studios in Hollywood.

Take the matter of ships' whistles in "Cheaters at Play", the new film coming next Thursday to the King's Theatre. The Fox Films librarian has previously 72 such blasts, on sound track, in his library files. They range from the pitiful piping of fishing dory in a fog to the fulminating boom of the Europa.

In the making of "Cheaters at Play", in which Thomas Meighan and Charlotte Greenwood have the leading roles, the sound technician had to supply a variety to three different sounds-ships, plane and city.

## "4 INFANTRYMEN"

The remarkable Nero production is adapted from the novel by Ernest Johannsen "The Four from the Infantry." The famous G. W. Pabst is its director.

The story concerns the lives and loves of four infantrymen in the German ranks who gave their lives heroically for their country; the Bavarian, Carl, the Student and the Lieutenant.

The action is concentrated upon these four people as representative of all of the warriors in the German army revealing what happened to them on the Western front in a series of terrible incidents. Trench mortars, rifle fire, gas, machine guns and big guns pound their way

through the picture and clear the way for the final and most powerful sequence of all which takes place in a front line hospital.

It is a sequence that is impossible to forget, so realistic and terrible are its horrors.

The picture boasts of a fine cast and excellent photography. The dialogue is all in German with the exception of a few occasional utterances in French.

## "EMMA."

American family life, its comedies and tragedies told in intimate style, furnishes the basis for one of the most dramatic stories of the screen in "Emma", which brings Marie Dressler to the Queen's Theatre on Sunday in her newest role.

The story deals with an engrossing phase of the "stepmother problem" with Miss Dressler playing the role of a devoted family servant who mothers the children of a rich inventor as though they were her own. Her subsequent transition from housekeeper to stepmother gives rise to a number of dramatic problems which reach a climax in a sensational courtroom sequence.

The picture is not devoted to comedy moments and there are hilarious incidents in the family life in which moviegoers may enjoy the familiar Dressler humour. A scene in which the inventor proposes to Emma in a crowded railroad station, an episode in which the star attempts to manipulate a pair of rowboat oars and an incident at an airport in which Miss Dressler gets mixed up with a machine which tests for dizziness, are said to keep audiences in a constant uproar.

The story was written by Frances Marion, author of "Min and Bill", which won Miss Dressler the 1931 Academy award for the year's best performance by an actress, and it was directed by Clarence Brown, who directed her in "Anna Christie" and recently scored with "Postscript" and "A Free Soul."

Richard Cromwell and Jean Hersholt head the supporting cast which also includes Myrna Loy, John Miljan, Furnell B. Pratt, Lella Bennett, Barbara Kent and Kathryn Crawford.

## "SUICIDE FLEET."

Thrills of actuality were added to sea rescue scenes of "Suicide Fleet," RKO Pathé's spectacular story of the navy which is the special attraction at the Central Theatre to-day when fire aboard the clipper ship on which the company was working swept out of control.

Disaster was averted when the Navy destroyer, Non, standing by for part of the action and also prepared for just such an emergency as arose, swept in and turned its pumps on the blaze.

Bill Boyd, Robert Armstrong, James Gleason, Ginger Rogers and Harry Bannister are featured members of the cast. A Navy officer, Commander Herbert A. Jones, wrote the story. Lew Lipton wrote the screen play and F. McGraw Willis did the dialogue. Albert Rogell directed.

## ALEXANDER INSTITUT DE BEAUTE

Liberal Order Lifting.

Ban. Moscow, May 22.

The Soviet government issued another liberalizing order to-day, decreeing that the survivors of the old Czarist regime, comprising about five per cent. of the population, were eligible for membership in the consumers' co-operative stores, entitled them to buy for the first time food and manufactured goods at minimum prices.

The decree marked a relaxation of the hitherto unrelenting attitude of the Soviet regime against the Czarists, who have comprised the disenfranchised or "declassed" elements.

The order was the third this month to mark a relaxing of restrictions by the Bolshevik regime, in power for a decade and a half. On May 11 an order was made public permitting the unrestricted sale of a number of staple articles, heretofore hard to obtain, such as milk, eggs, cheese and tea. Still on the list of foodstuffs purchasable only in limited quantities remain flour, bread, meat, butter, oil and sugar.

The new Hebrew Broadcasting Corporation announces that its future programme will include Arab art and that efforts will be made to induce prominent Arabs to speak at the microphone. A short wave transmitter will shortly be erected in Palestine in order to permit the exchange of programmes with Europe.

Items will be broadcasted from the new transmitter in Hebrew, English and Arabic, but reading from German literature will be given in the original.

## Home Cricket Scoreboard

## COUNTY CHAMPIONSHIP.

Yorkshire beat Surrey by 178 runs at Sheffield.

Yorkshire: 241 and 160 (F. R. Brown 5 for 41).

Surrey: 126 and 97 (Bowes 5 for 48, Verity 5 for 39).

Derbyshire took first innings points from Essex at Leyton.

Derby: 365 (Smith 111); 99 for 1.

Essex: 364 (L. G. Crawley 188, Lee 7 for 67).

Lancashire took first innings points from Warwickshire at Nelson.

Warwick: 125 and 175 for 7 dec.

Lancashire: 183 (Paine 6 for 62);

19 for 1.

Middlesex took first innings points from Kent at Tunbridge Wells.

Kent: 221 (Woolley 94, R. W. V. Robins 6 for 45); 298 for 9 (Ames 130 not out, Durston 5 for 78).

Middlesex: 421 (Hearne 181).

Gloucestershire took first innings points from Glamorganshire at Bristol.

Glamorgan: 279 and 303 for 6.

Gloucester: 361.

Northamptonshire drew with Somersetshire at Kettering.

Northants: 454 (V. W. C. Jupp 163).

Somerset: 463 for 8 (Burrough 135).

Trent Bridge.

Notts: 188 (Amar Singh 7 for 55);

288 (C. K. Naidu 5 for 95).

All-India: 125 (Vocce 5 for 51) and 127.

## ATHLETICS.

**Scottish Inter-Varsity Athletics****Glasgow Win Decisively**

ALISTAIR LAPSLAY REGISTERS "TRIPLE" &amp; NEIL MORRISON A DOUBLE RECORD.

**NEW POLE JUMP FIGURES**

Glasgow, June 11.

Glasgow University to-day decisively won the Inter-Varsity Athletic Meeting at Westerlands against Edinburgh, Aberdeen and St. Andrew's. For their success they were in no small way indebted to Alistair Lapsley, who gained a "treble," and to Robin Murdoch and Ian Borland.

Neil Morrison of Glasgow also distinguished himself when he created a double record in winning his fifth Inter-Varsity Mile in record time.

There was a sparse attendance at the Inter-Varsity Athletic Meeting at Westerlands which began with the heats in the 440 yards hurdles events, a new race in the championship. Sileck, Edinburgh, won his heat easily from his only rival, Souter, Glasgow, but his time, 68.3-5 secs, showed he would have to find a bit of running to beat Taylor, Glasgow, who won the second heat in 62.3-5 secs.

Glasgow gained six points out of seven from the 100 yards race. A great race was seen between the Western pair, Murdoch and Borland, and the former just got home to win by a foot. Howeson, of Edinburgh, was third, but he never looked like getting on terms with his Glasgow rivals. It was a splendid send off for Glasgow. The time was 10.1-5 secs.

## Wells Falls in Half-Mile.

Wells did not win the half-mile. He could only finish third, and he was hard pressed to do even that. Watson, the sole St. Andrews representative, was the victor, and he did the distance in 2 mins. 1.3-5 sec. He demonstrated emphatically that he was a half-miler of some distinction. Murray, of Stewart's College, although beaten by about three yards, ran a fine race, and did probably as good time as ever he did. Watson is a former Edinburgh Academy champion.

Glasgow went further ahead in the weight-putting with six points to Edinburgh's one. That was pretty much according to expectations, however. Geissel, of Edinburgh, was fully two feet behind the winner, Radcliffe, of Glasgow.

Borland gained his first award in the 220 yards, which he won very comfortably from Russell, the Edinburgh. Academic cricket and Rugby player. The latter's third, however, meant two useful points for Edinburgh, especially as Howeson could not do better than finish fourth. The time, 23 secs., was well behind Liddell's record of 21.3-5 secs.

## Good High Jumping.

The high jumping which took a tremendously long time to decide, was extraordinarily good. Six or seven competitors cleared 5 ft. 7 ins., and three. Lapsley, Kennedy, and Milne, cleared 5 ft. 10 ins. Milne failed at 5 ft. 11 ins., and both the others were successful, but it was their limit. Neither could get over 6 feet, and so tied for first place. Milne was third, so that Edinburgh took four points from the event.

The record for the high jump for the meeting, 5 ft. 9 ins., made by W. L. Hunter in 1914, was broken by four men, Lapsley, Kennedy, Milne, and Richardson, and the last-named had the ill-luck to break the old record and yet not be placed.

The competing 'Varsities were Edinburgh, Glasgow, Aberdeen and St. Andrew's.

## CHAMPIONSHIP EVENTS

## 440 Yards Hurdles.

First Heat—1, B. A. Sileck, Edinburgh; 2, F. H. Souter, Glasgow. Time—68.3-5 secs.

Second Heat—1, J. Taylor, Glasgow; 2, I. Graham, St. Andrews. Time—62.3-5 secs.

## 100 Yards.

1, R. Murdoch, Glasgow. 2, I. H. Borland, Glasgow. 3, R. A. Howeson, Edinburgh. Time—10.1-5 secs.

## 220 Yards.

1, I. H. Borland, Glasgow. 2, C. S. Russell, Edinburgh. 3, A. W. McCosh, Glasgow. Time—23 secs.

## Half-Mile.

1, J. B. S. Watson, St. Andrews. 2, I. A. Murray, Edinburgh. 3, C. M. Wells, Edinburgh.

**THE U.S. SELECTIONS FOR WALKER CUP.****Team of Ten Includes Five New Men.****OUIMET AS CAPTAIN.**

New York, June 29. The American Walker Cup team to meet Britain at Brookline Massachusetts, on September 1 and 2 were selected to-day. They are:—Francis Ouimet (captain), G. Dunlap, Billy Howell, Jimmy Johnston, Don Moe, Maurice McCarthy, G. Seaver, Jessie Sweetser, George Voigt, J. Westland.

It is expected that eight of the above ten will play, but the final selection will made just before the matches. Five of those named have never played for the Walker Cup before.

**OSWICK AND DE ROME SUCCESSFUL.****Enter Second Round of Bowls Open.**

Two further matches were decided yesterday in the Lawn Bowls Open Championship with the following results:—

(on Taikoo, Green.) L. de Rome beat J. Hunter 21—16.

(on Police Green.) A. H. Oswick beat L. E. Lammet 21—8.

De Cullen, champion in 1925, in the Second Round, whilst Oswick will meet A. K. Taylor, who received a walk over from P. Madan who has left the Colony.

**RADIO SPORTS TEAM FOR FRIDAY.****Hockey Encounter Against Borderers.**

The following will represent the Radio Sports Club against the South Wales Borderers on the Marine ground on Friday at 5.30 p.m.:—

S. Singh; B. Singh, J. Singh; Hamid, E. Tack, J. T. K. Gilchrist (captain); A. E. P. Guest, G. Singh, Atta Singh, Kalwant Singh, and M. Singh.

Reserves:—H. Singh and A. Singh. Referee:—Mr. Hessian.

Glasgow, Later.

It was nearing seven o'clock at Westerlands on Saturday evening when P. B. B. Ogilvie brought to a close a record-breaking Inter-Varsity's contest by clearing over 12 feet in the Pole Vault, thus establishing a new Scottish record.

By this time fifty per cent. of the spectators had departed, but the effort was worth waiting for.

The meeting was carried through with a casualness which should be the element of sport, a fact apt to be overlooked nowadays, when spectators demand a thrill a minute, but the quality was there.

Glasgow won decisively, the presence of Alistair Lapsley, who won three events, coupled with the sprinting of Robin Murdoch and Ian Borland, turning the scale in her favour.

## Jumping Thrills.

It may seem ridiculous to associate a high jump with thrills, yet nothing else could be said of the feelings of the spectators as four men alternately went over the record height of 5 ft. 9 ins. When Lapsley cleared 5 ft. 11 ins., it seemed all over, but the bespectacled Edinburgh student, J. Kennedy, followed suit.

Ogilvie's record was made after one failure, when the bar had been raised from 11 ft. Sims, to a carefully-measured 12 ft. 0½ ins.

On the first occasion Ogilvie appeared to hurt himself in falling on his shoulder, and it was plucky of him to go on again, after a very short breathing space, as he was the only competitor in action. He actually started only when the others had been beaten by the height.

## Varsity Enthusiasm.

Neil Morrison, in creating a double record in winning his fifth successive Inter-Varsity mile, is definitely a much improved runner this season, and Hewitt's three miles win was also a distinguished performance, as he completely tailed off his field from the start.

There can be no doubt that the enthusiasm of our Universities is raising the athletic standard in Scotland tremendously, and some splendid performances are foretold at the Scottish Championships, a week on Saturday. The enthusiasm has paid itself in the girls, two women's records being broken on the track and in the broad jump.

The Women's Championships at Colgate, New York, on Saturday, first should reveal the results of the first season.

**AL BROWN FORCED TO A DRAW.****World Champion Against Nel Tarleton.****PERFECT BOXING.**

London, June 29. After fifteen rounds of the most perfect boxing that could be imagined on the Liverpool ground last night, Nel Tarleton, the British featherweight champion, and Al Brown, the coloured bantam-weight champion of the world, fought a draw before 35,000 spectators.

It is difficult to pick out any particular round or any particular incident for special mention, because the boxing throughout was consistently good.

Al Brown has not made that progress in the last twelve months that his supporters had hoped. Last night's fight revealed that he is slower and less aggressive than when he last fought in England.

Tarleton's Impregnable Defence

It is true that he was faced with possibly the cleverest boxer in the country, but Brown has physical attributes which should enable him to master any opponent within a stone of his weight.

Brown is a physical freak, more of a freak than even the great Jimmy Wilde, at his best, and that he could only draw with Nel Tarleton is ample proof that the coloured man has gone back, even as it is that Tarleton continues to improve every time he appears in the ring.

Brown made the body his objective, but not even his long arms could get inside the defence of Tarleton, who all through fought a very cool, calculating and gallant contest.

## Good Verdict.

Nothing the bantam champion could do was enough to rattle the Englishman, boxer in this country produces such a sterling display against one who is acknowledged as one of the three fastest boxers in the game.

Although there were some cries of dissent when the referee declared his verdict, there can be no doubt in the minds of impartial judges that the decision represented the general opinion of the spectators.

The golfer who has muscular control of his left leg and can screw it round as if to screw his left foot into the ground is a good golfer indeed.—Aubrey Boomer.

**CARDINALS OUTHIT BUT WIN.****Close Defensive Game Against Reds.****PIRATES REMAIN ON TOP.**

New York, Yesterday. The St. Louis Cardinals, though outhit by the Reds, played a close defensive game after Lombardi had made a circuit cloud to place them in a satisfactory position, and won by 4 runs to nil to record their thirty-sixth victory. The game went to the twelfth innings before the Cardinals clinched the issue.

In the only other major League game the Pirates maintained their supremacy at the head of the table by a narrow victory over the Giants.

#### RENEE CHEMET'S RECITAL.

[The Editor, "China Mail"]

Sir.—As is the case with so many good artists visiting the Far East, the public probably do not realize the high reputation of Mme. Renee Chemet, who is giving a violin recital at the King's Theatre at 9.30 p.m. on Friday next. Her London and Paris critiques alone show how enthusiastically she is received in the great musical centres.

This artist will appeal to the general public as surely as any male violinist who has visited Hong Kong. During a career of twenty years or so, Mme. Chemet has established sound reputation—not as a purveyor of fireworks, though her technique is perfect, but as a musician, a player of the romantic type, with all the virility associated with male virtuosos.

In Shanghai, where she played in the big Nanking Theatre, she was compelled to give seven encores.

It is to be hoped that the success attending the Heifitz and Brawleysky concerts in the King's Theatre will be repeated in her case. In the old days, even the most enthusiastic music-lovers baulked at having to sit in the sweltering heat of the Theatre Royal. Now, for the first time, we shall be able to listen to Summer concert in cool surroundings. The prices, too, are popular ones. If the public responds, Mme. Chemet will have a deserved success.

Yours, etc.,

A. M. BOWES-SMITH.

Hon. Secy., Hong Kong  
Musical Society

### News in Brief.

Three cases of typhoid and one case of cholera were notified to the M. O. H. yesterday.

Quarantine restrictions have been imposed against arrivals from Swatow on account of Cholera.

The latest census shows that the population of London proper is 4,307,003, a decrease of 87,520 over the last figure. The outlying districts show an increase of 723,741, with a total of 3,806,939, making the total population of the City of London 8,203,942.

The return of notifiable diseases for the week ended July 2, gives the following:—Cholera 45 cases, 18 deaths (3 imported); typhoid 7 cases, 4 deaths (2 imported); small-pox 3 cases, 1 death (2 imported); diphtheria 2 cases, 1 death; meningitis 4 cases, 1 death (1 imported); pulmonary tuberculosis 66 deaths.

Before Mr. Fraser, at Kowloon Magistracy yesterday, Mr. H. C. Lee appeared on behalf of Chin Shun-ian for an order for maintenance. Mr. R. C. H. Lim instructed by Mr. P. H. Sin appeared for the defendant, Lee Shek-fuk. In cross-examination by Mr. Lim, the complainant admitted that she left home to work in the hospital as a nurse, in spite of defendant forbidding her to do so.

The Health Bulletin of Eastern Ports for the week ending June 25, states:—Plague: Alexandria—1 case; Baghdad—1 case; Bassin—1 case, 1 death; Rangoon—1 case; Pondicherry—2 cases, 2 deaths; Cholera: Calcutta—132 cases, 70 deaths; Rangoon—2 cases, 1 death; Phnom-Penh—1 case, 1 death; Saigon—1 case, 1 death; Canton—293 cases, 90 deaths; Shanghai—276 cases, 11 deaths; Small-pox: Port Soudan—1 case (among pilgrims); Baghdad—1 case; Bassin—3 cases, 4 deaths; Calcutta—12 cases, 8 deaths; Karachi—5 cases, 1 death; Madras—6 cases, 3 deaths; Rangoon—8 cases, 2 deaths; Pondicherry—1 case, 1 death; Saigon—9 cases, 9 deaths; Canton—8 cases. Cerebro-Spinal Meningitis: Bangkok—1 case, 1 death.

#### SPANISH KING'S CASH FOR THE POOR.

According to press reports the Spanish Cabinet appropriated \$1,000,000,000 pesetas for distribution amongst the poor. The sum represents part of the proceeds realized from the sale of the Alcazar's property, and included the royal charity fund of 21,000,000 pesetas confiscated by the bank. That money will be distributed under the supervision of the Home Ministry.

### JAPANESE EXPECT KIRIN SEIGE.

Anti-Manchukuo Forces Concentrating.

#### FIERCE FIGHTING.

Japan Arms Claim Two Decisive Victories.

Harbin, Yesterday.

In spite of the defeat of anti-Manchukuo forces in fierce engagements of a minor nature in the past few days, Japanese headquarters report that the "lawless element," enemies of the new state, are concentrating and preparing to attack Kirin. The main force of the anti-Manchukuo troops is encamped within 80 miles of the city. It is learned, and apparently intend to drive down upon it from the north.

Japanese cavalry units report

that they met and defeated a

force of approximately 800 anti-

Manchukuo horsemen in the

Tungpei district, to the north of

Hailan, on June 27. They inflicted

considerable losses upon the

enemy, they state, killing at least

75 and capturing a quantity of

arms and ammunition.

Two days later another engage-

ment occurred in the same dis-

trict. Japanese claim to have

defeated about 600 anti-

Manchukuo troops on this occa-

sion.

In the meantime remuneration

will continue to be assessed as at

present, unless for six consecutive

months during this period of

stabilisation, the cost of living

figure is either below 35 or above

60. In either of these events a

general review of the question

would be undertaken.

The foregoing arrangements are

subject at all stages to over-riding

in consideration of the national

financial position.—British Wireless Service.

### CIVIL SERVICE SALARIES.

Settlement Reached  
on Consolidation.

#### CHANGE DEFERRED.

Pay Has Varied with  
Living Costs.

London, Yesterday.

A settlement has been reached on the matter of consolidation of pay in the Civil Service, it was announced in the House of Commons to-day.

A memorandum embodying the settlement states that the Government adheres to its decision to terminate the terms under which the Civil Service remuneration varies automatically with changes in the cost of living figure, and apply instead the principle of consolidated remuneration, which will be subject to consideration in light of any substantial changes upwards or downwards in level of remuneration outside the Civil Service, but having regard to representations of the staff. Consolidation will be deferred until April 1, 1934.

In the meantime remuneration will continue to be assessed as at present, unless for six consecutive months during this period of stabilisation, the cost of living figure is either below 35 or above 60. In either of these events a general review of the question would be undertaken.

The foregoing arrangements are subject at all stages to over-riding in consideration of the national financial position.—British Wireless Service.

### LOCAL SPORTSMAN PASSES.

Death of Mr. Sydney  
Ashworth.

#### A POPULAR FIGURE.

A popular bowling enthusiast and Hong Kong officer passed away at the Kowloon Hospital yesterday afternoon, in Mr. Sydney Ashworth, Government Marine Surveyor, from pneumonia, after a brief illness. He was a prominent member of the Kowloon Bowling Green Club, and was one of the outstanding men in the junior league team.

Mr. Ashworth came to Hong Kong in December, 1929, after serving many years with the marine staff of Messrs. Alfred Holt & Co., Ltd., of London. He trained with the London Board of Trade prior to coming East, when he was appointed to the Marine Survey Office.

He was a Member of the Institute of Mechanical Engineers and an Associate Member of the Institute of Naval Architects, and was one of the leading experts on Diesel engineering, his advice being sought frequently by local and Eastern shipping firms. He was well known and popular in shipping circles in the Far East.

Mr. Ashworth was a member of the Victoria Masonic Lodge No. 1026, which he recently joined. He was an enthusiastic mason and was appointed one of the Stewards last month.

The funeral has been tentatively arranged to take place from the Kowloon Hospital at 11 a.m. to-day. Members of Victoria Lodge No. 1026, of the Kowloon Bowling Green Club, and of the Marine Surveyors' Office will be represented in the cortège.

Mr. Ashworth was born in Liverpool in 1892. A wife and two children are left to mourn his loss, and the greatest sympathy will go out to them.

#### IN HONOUR OF ROENTGEN.

The first Roentgen Museum in Germany was opened on June 13, in memory of the illustrious physicist to whom the world owes the discovery of X-rays. At Roentgen's birthplace, Lenzen, Rhineland, the museum, which is housed in an ancient mansion formerly belonging to a patrician family, contains, in addition to a room specially dedicated to the personal reminiscences of Roentgen, a so-called hall of honour for famous doctors and also a Roentgen library.

## NOULENS REFUSES TO ANSWER.

Seeks Transfer of Case to Shanghai.

WIFE ALSO SILENT.

Nanking, Yesterday. The court held its first public hearing of the Noulens trial this morning. Noulens refused to answer any question which was unimportant regarding the application for the transfer of his case to the Shanghai court.

He gave his name, address and age, but refused to give his nationality.

Mrs. Noulens also refused to answer questions.

After six hours, Judge Li Mien declared that the Noulens' petition for transfer would receive the consideration of the court, whose decision would be announced within a few days.

The Noulens are charged with communistic plotting. — Reuter.

## LAUSANNE PARLEY MAY COLLAPSE.

(Continued from Page 1.)

Firstly, the German representatives demanded that, if the bonds could not be issued at 90 for a period of ten years, then they should be automatically cancelled; secondly, they wanted satisfaction in the matter of equality of disarmament and, thirdly, the annulment of Article 231 in the Treaty of Versailles, dealing with reparations.

Herr von Papen announced that the French rejected both the plan and the German conditions. Thus, that path was closed.

Points to Consequences).

It is learned that in the course of the day, Premier MacDonald outspoke the consequences of failure of the Lausanne conferences. And, as a result, the Germans finally increased their offer for settlement by a half milliard marks. But they required satisfaction on other points.

Then, like a bombshell, came the news of M. Herriot's adamanant stand. While the French representative had, according to report, reduced his original demand of seven to four milliards of marks as Germany's payment to the debt fund, following Premier MacDonald's earnest solicitation, he had been severely criticised in France. But he had not been bound by his statements, it is understood, and had reserved the right to revise his demands.

Premier MacDonald is now continuing his conversation with Herr von Papen while M. Herriot remains within hailing distance.

Conference Jeopardised.

The sudden hardening of M. Herriot's attitude since his return from Paris is unquestionably jeopardising the fate of the conference. He amazed diplomatic circles.

Towards the end of the day discussions of most intensive nature were proceeding. Literally, the leaders are fighting for the life of the conference and for some way out of what now has taken on the aspect of a deadlock. In these late discussions, Premier MacDonald was again the central figure. But the weary statesman was commencing to show unmistakable signs of the strain, of a great physical fatigue.

It is said that M. Herriot at the last moment has not only refused to yield an inch in his demands for a German settlement, but has also refused to entertain a suggestion of consideration for the German political conditions. He declined to discuss the war guilt clause of the peace treaty and finally asserted that if the conference was not satisfied with the French claims, then the Young Plan would have to be continued. — Reuter.

Wireless Report.

Lausanne, To-day. At Lausanne to-day Premier MacDonald had protracted conversations with German Chancellor Von Papen and French Premier Herriot in which it is understood efforts were continued to reach an agreement upon the figure of the final reconstruction payment and outstanding technical points regarding the method. — British Wireless Service.

## MR. T. YOSHIDA, TRANSFERRED.

Acting Consul-General at Canton.

LEAVES NEXT WEEK.

Mr. T. Yoshida, Consul of Japan, who has represented his country in this Colony as Acting Consul-General since January, 1930, has been transferred by his Government to Canton in the capacity of Acting Consul General. He leaves the Colony to take up his new post next week.

His successor has not been appointed yet. Mr. T. Kohri, Vice Consul, will be in charge until the new Consul General comes.

In 1916, Mr. Yoshida graduated from the Department of Political Economy of the Keio University, Tokyo, and three years later passed the examination for Diplomatic and Consular services. In 1920, he was appointed as Vice-Consul at Portland, Oregon, being transferred to Chicago two years later.

His appointment to Consul at Chicago was made in 1923. In 1925 he was Acting Consul General at Honolulu, later becoming Secretary of the European and American Bureau, Foreign Office, Tokyo.

In 1927 Mr. Yoshida was appointed Third Secretary of the Legation at The Hague, becoming Second Secretary in 1929. In the same year he was present at the International Conference for Reparation. Questions as one of the members of the Japanese Delegation and as a secretary of the Committee for Political Affairs of the Conference, which Committee was formed of the six Powers—Great Britain, France, Germany, Italy, Belgium and Japan.

He also attended the Tenth General Assembly of the League of Nations as one of the members of Japanese Delegation.

## CUSTOMS REVENUE DECLINES.

## Seizure in Manchuria Blamed.

## SIR FREDERICK SPEAKS.

Shanghai, Yesterday. Sir Frederick Maze, Inspector-General of Customs, issued a statement to-day as follows:—

"Owing to the seizure of the Customs revenue in Manchuria by the so-called Manchukuo authorities, customs revenue receipts for June have fallen sharply. The total payments for loans and indemnities during the month were T.12,935,000 and the total remittances received were T.12,827,000, thus causing a deficit of T.108,000 instead of the usual surplus.

"A slight further falling off in revenue due to any one of a number of causes will thus affect the payment of the Customs commitments." — Reuter.

## TWO KILLED AS BUS, LORRY COLLIDE ON CASTLE PEAK ROAD

(Continued from Page 1.)

telephone message was sent to the Police by Mr. B. D. Evans, of the Royal Observatory, who arrived on the scene a few minutes after the collision took place. Mr. Evans was proceeding to Au Tau in his own private car.

The place where the impact occurred is on a sharp bend, a little nearer Kowloon than the Mollases Co., tanks, and not far from Mr. Ruttonjee's bungalow. The bend is practically a right angle one, and the width of the roadway at that point is only 20 feet.

Travelling Fast?

Heavy wheel marks are visible at the point where the vehicles met, and when they were brought to a standstill, a distance of 84 feet separated them, which seems to indicate that both were travelling at a fairly good speed.

The traffic department of the Kowloon Police were quickly on the scene, first to arrive being Sergeant Scrim and Clarke, Sub-Inspector Mason arriving shortly afterwards. The body at that time had been removed to the side of the road, to allow other traffic to pass, and later they were removed to the side of the road, to allow other traffic to pass, and later they were removed to the public mortuary.

The driver of the bus was Chung Chan and the conductor Tang Luk, who left Mongkok with the vehicle at 8.45 a.m. — Reuter.

## Lost Fliers Fought Starvation

## Lived Upon Snails In Australian Wilds

## Saw Rescuers Pass

Wyndham, Yesterday. Finally rescued after two months wandering in the wild, northwest coast region of Australia, two German airmen have told a story of heart-breaking difficulties and gripping adventure to the men who brought them back to civilisation.

Captain Hans Bertram and his companion, Klausman arrived here yesterday and are recovering from the trials and hardships they experienced. They should have starved to death had they not been able to find numbers of small snails. They would have died of thirst, except that they were able to drink the water from the radiator of their stranded aeroplane.

When the rescue party finally found them, the two men were near exhaustion. They were only able to whisper, through parched, blackened lips, "Bread, bread."

After having been refreshed with food and drink, Capt. Bertram related, jerkily, some of their experiences: how they had flown, blind, through a terrific storm as they sought for the Wyndham air port and how they were driven to a forced landing on a beach at 7 p.m. on May 16.

RATCLIFFE'S RECORD.

(Continued from Page 1.)

A. R. Legard finished off the Cambridge innings, the last three wickets adding 76 runs towards the total of 431, the third highest total in the series of matches. Legard finished up with the splendid analysis of 4 for 40.

Only two higher totals have been amassed in the Varsity match—503 by Oxford in 1930 and 463 for 8 by Oxford last year. The highest Cambridge total previous to yesterday's performance was 415 for 8 in 1921.

Home Still There.

Oxford lost four good wickets before the close of play and require 146 runs to save the follow on. B. W. Hone, the Dark Blue's most consistent batsman, is still undefeated with 64 to his credit.

Full results as cabled by Reuter were as follows:

Cambridge, 187, Oxford, 182.

A. R. Legard 4 for 40.

Oxford, 14 for 4; B. W. Hone,

## REMOVAL OF CITY'S HOUSE REFUSE.

Mr. G. R. Sayer's Replies To Mr. Lo.

## SEEKING IDEALS?

At the fortnightly meeting of the Sanitary Board held yesterday afternoon, Mr. M. K. Lo, pursuant to notice, asked the following questions, with reference to the subject of refuse removal brought up at the last meeting of the Board:

Mr. Lo asked:

I. Will the Head of the Sanitary Department inform this Board as to whether it is the fact that some of the lorries are already provided with covers whilst some are not so provided, and if this is the case will the Head of the Sanitary Department state what is the number of lorries in each category?

II. Will the Head of the Sanitary Department recommend to Government that all scavenging lorries should be so constructed or altered in such a way that the space for the storage of refuse is divided into a number of separate and self-contained compartments, with a properly fitted and tight-fitting lid for each compartment, and if not, why not?

III. As regards such lorries (if any) which already possess lids or covers, will the Head of the Sanitary Department instruct the officers in charge not to overload the lorries in such a way that the lids or covers cannot be closed properly?

Mr. Sayer Answers.

Replying to each question in turn, Mr. Sayer said:

(1) "It is not the fact."

(2) "As at present advised I think it is better to continue searching for the ideal unit of transport on the assumption that it will not be subdivided. Subdivision would tend to cause delay in loading and off-loading."

(3) "I do not think it would be desirable to modify existing arrangements by which the length of routes is adjusted to the size of lorries; and lorry men are instructed to accept all householders refuse that is promptly proffered. Experiment has shown that the lorries are so constructed as to make overloading by household refuse impossible."

Mr. G. R. Sayer presided, others present being the Hon. Mr. A. E. Wood, Dr. G. W. Pope, (Medical Officer of Health) Dr. Li Shu-fan, Dr. R. A. de Castro Basto, Mr. C. Champkin, Mr. M. K. Lo, Mr. L. C. F. Bellamy, Mr. Wong Kwong-tin, Mr. J. H. Gelling (Secretary) and Mr. J. C. Lang (Assistant Secretary).

## FUGITIVE OPENS FIRE ON CONSTABLE.

(Continued from Page 1.)

The officer was on patrol duty in Des Voeux Road, West, at about 4.30 a.m. when a Chinese attracted his attention. The man's actions were suspicious and Constable Harris called to him to halt. But he ran, instead.

Rapidly overtaking him, Constable Harris caught the Chinese by the shoulder and attempted to hold him. But the other struggled desperately. Somehow both men fell sprawling and in the melee the officer's revolver was drawn and dropped. The Chinese, it is alleged, seized the weapon and fired two shots, both of which actually touched the officer's tunics but which did not inflict a wound.

Scrambling to his feet, the Chinese ran again, dropping the revolver. The constable picked it up, fired one shot at the retreating figure and then gave chase.

## GUARDS INTERPOSE.

The shooting aroused two Indian guards at some little distance, who, rushing into the roadway, intercepted the Chinese and held him.

Charged with resisting arrest and shooting at the constable, the prisoner, Lum Lu, (22), a coolie, appeared before the Magistrate, Mr. Schofield, in Central Police Court to-day. He did not plead to either charge.

Detective Sub-Inspector Clark informed the court that he had been instructed to inform His Worship that the Crown would probably ask that the man be committed for trial at the next Criminal Sessions.

The accused was remanded for a week on the shooting charge and on another count charging him with burglary at Lat On Lane near Mid Street.

THE BEST VENTILATED THEATRE IN THE COLONY WITH OVER 100 WINDOWS WHICH, OPEN AT NIGHT, GIVE FRESH AND NATURAL AIR TO THE WHOLE HOUSE. OUR MACHINE IS OF THE BIGGEST SIZE—THE SOUND IS THE CLEAREST, AND THE PRICE IS THE HIGHEST. WE HAVE TWO LARGE SIZED LIFTS FOR THE CONVENIENCE OF OUR PATRONS.

The Healthy Child is Clean Internally.

The parents of the last generation knew what they were about when they laid out the weekly laxative to their children. They knew that the basic principle of health was the regular cleansing of the food tract. But what crude, gripping, nauseating laxatives were used in those days! And often the upset which taking the medicine caused to a nervous child quite nullified any benefit received.

Nowadays science has given parents something infinitely better in Baby's Own Tablets, the pleasant-tasting, non-gripping laxative and stomach regulator specially devised for babies and children up to about six or seven. These tablets have established a place for themselves in millions of homes as the accepted health-safeguard for the little ones.

The children like them and the parents know that though they are gentle in action they are none-the-less sure and effective. For stomach troubles and constipation, feverishness, colds and cough, for diarrhoea and worms, Baby's Own Tablets are speedily efficacious. During teething they are especially valuable, though they are guaranteed under Public Analyst's certificate to contain no opiates, narcotics or other harmful drugs, but to comprise only those ingredients proved by medical experience to be best and safest for children's ailments. All parents should safeguard their children's health by an occasional dose of Baby's Own Tablets. Obtainable from chemists everywhere.

The solution of the above will appear in to-morrow's issue.

## SAILOR'S AID TO NAVIGATION

### Shooting the Sun.

### COMING OF THE QUADRANT

To the layman and passenger on board the liner there is no more interesting part of a sailor's job than the discovery of his precise position in mid-ocean, a job which goes by the general term of "Shooting the sun," although as a matter of fact there are to-day many secondary ways of doing it in addition to the age-old one of measuring the sun's altitude and working from that.

The earliest form of navigation was, naturally, the coastal or point-to-point system in which the sailor very seldom ventured out of sight of land and when he did it was only from one well-known point to another. Yet by this elementary system the navigators of old carried out some very remarkable achievements, for it was the only one known to the Phoenician traders who ventured out of the Mediterranean in search of Cornish tin and every other commodity, such men as Hanno the Carthaginian whose feats would be creditable to any modern navigator with every instrument, and to the masters of the fleet which brought the tribute grain to Rome.

From Arabia to China.

All these feats are, considering the circumstances, remarkable enough, but they pale into insignificance besides one which, although not yet confirmed by absolute proof, is a theory which is put forward on such good authority that it merits very careful consideration, and that is that Egyptian Arabs found their way as far East as China by this coastal navigation at the very dawn of history, and that the eye which decorates the bow of so many Chinese junks—"No eye, how can see?" asks the Chinaman—is simply the Eye of Osiris with which these Arab bows have been decorated since time immemorial.

Coming of the Quadrant.

With the aid of a nocturnal, the cross-staff and astrolabe could also be used for night work with the Pole Star and those instruments, backed of course, by the mariner's compass which had been in general use in Europe for over a century, enabled him to carry out his voyage and also to be the first to note the variation of the compass from true North.

The first great improvement on these methods was the introduction of the backstaff about 1590 by John Davis, the celebrated Elizabethan navigator. This was a great improvement on the fore-staff for it had the advantage that the observer worked with his back to the sun and took the angle of shadow. The next great improvement was in 1731 when John Hadley's quadrant replaced the astrolabe. Like the back-staff it was indirect, working on reflection, and although it was very clumsy, being between two feet six inches and three feet long, its principle is in use to-day. Hooke has

## HARBOUR OFFICE.

### Moderate Freight Figures Reported.

The Harbour Office Reports for the 24 hours ended 9 a.m. yesterday gave a free movement of vessels with a high tonnage. Freights were moderate, both the inwards and throughs failing to reach five figures. The total tonnage entered was 41,823.

There were 11 inward registrations, of which one was British and two of four figures, while of the eight throughs, two were British and four of four figures. Two vessels arrived in ballast.

Passengers entered during the period included 38 Europeans and 1,593 Asiatic deck British vessels

carrying five out of the total in all classes.

Details follow:

Nationality	Arr. H'Kong	Dep. Through	Cargo Tons	Cargo Tons
British	3	285	7	1,230
American	1	97	—	1,351
Dutch	2	514	1	1,364
Norwegian	1	1,800	—	1,622
Portuguese	1	4,822	3	8,452
Japanese	7	75	4	—
Chinese	—	—	2	—
Danish	—	—	—	—
Totals	16	7,693	18	9,515

worked on the same idea about the year 1665 but had failed to bring it to a practical conclusion, and the famous Isaac Newton is also supposed to have thought of it. But Hadley made the quadrant practical and he also invented the octant, having an arc of one eighth of a circle.

Before navigators adapted Hadley's idea to the sextant which is in universal use to-day, using an arc of one sixth of a circle, experiments were made with a quadrant and also with a double sextant which is generally used for surveying. Reflecting circles, taking the whole perimeter instead of only an arc, were invented about 1750 and were occasionally used as a aid by old sailing ship masters although they were never general.

Minute Calculations.

As John Hadley's idea has been adapted to the modern sextant a horizon glass is divided, half being plain and half mirrored. The mirror shows the reflection of the sun when the hinged arm and sight is pointed straight at it, while the plain section is directed at the horizon. It is necessary to bring the sun exactly on the horizon, with no windage and no overlapping, then to clamp the arm and make the final minute adjustment with the tangent screw, having the exact time taken by chronometer, and read the angle on the gauge.

The difficulty of getting the absolute accuracy necessary when a small ship is rolling and pitching may be imagined, and due allowances have to be made for such factors as the height of the observer above the water before the position is worked out from the angle by logarithms or previously prepared tables.

Leningrad.

The famous Russian icebreaker, Krassin, which was instrumental in saving the survivors of the ill-fated Italia expedition a few years ago, returned on Saturday from a five months trip into the Arctic.

Owing to its usual ice conditions the voyage proved extremely hazardous, the return trip alone requiring three months.

## HOW M2 IS TO BE RAISED.

### The Navy's Boldest Salvage Effort.

#### DIVERS' FEATS

London, June 10. So much progress has been made towards salvaging the M 2 that it is hoped, with reasonable luck in weather and tides, to refloat the submarine now lying with the bodies of her crew 100ft. deep in West Bay, Portland, and tow her into harbour in about a month's time.

This is the most ambitious salvage effort the Navy, which has no salvage service, has ever made at such a depth. In view of weather and tidal difficulties the work done so far has not taken much longer than was expected.

Those responsible believe that the compressed air blown into the hull will give the M 2 sufficient buoyancy to rise. It is calculated that she will have in her over 100 tons of loose water which cannot be forced out, and to ensure stability in these circumstances will be one of the most anxious problems of the entire operations.

A great deal of the necessary work has been done. The conning tower and hangar have been sealed with special cement, and hoses have been fitted to them to carry compressed air. To provide means for the water to escape, holes have been burnt and drilled in the outer and inner hulls, sealed with steel and rubber patches and fitted with valves.

Divers' Feats.

When the vessel is floated the compressed air pumped into her will force out the water. She will rise, it is planned, bow first. When on the surface divers will close the valves, and she will be watertight and ready for towing to harbour.

An unprecedented number of hours have been spent under water by the pick of the Navy's most experienced deep sea divers. From March 5 to May 30 diving hours totalled 247. One diver remained underwater continuously for the astonishing period of 6 hours and 40 minutes.

When the vessel is salvaged, and immediately after the bodies of

CURIOUS SUICIDE BY  
DESTITUTE MAN.Electrocutes Himself by  
High Tension Cable.

Warsaw.

A strange form of suicide by self-electrocution, suggested to him by an unusual accident which he witnessed last August, was resorted to by an aged and destitute man who was out of employment and tired of life.

While at a party last August, the old man had been a horrified spectator of the death of his host and hostess when one of the guests, becoming unduly excited, started shooting with a revolver and brought down an overhead electric cable. Now wishing to end his own life, he came by night, armed with a large quantity of wire, to where an electric conduit carrying 5,000 volts, passed overhead just outside Warsaw. Winding the wire round his neck several times, he passed the end through one of his sleeves and attached it to a stone. The current passing through his body to earth, he was killed instantaneously.

MADAME RENEE  
CHEMET.Programme for  
Friday.

## A TALENTED VIOLINIST.

Giving only one concert in Hong Kong, Madame Renee Chemet will appear at the King's Theatre on Friday, July 8. This world famous violinist who has been acclaimed the equal of Fritz Kreisler, will be welcomed by Hong Kong music lovers.

The programme chosen by this renowned artiste is especially adopted to the violin and players of this instrument will greatly appreciate her selections. Three of Kreisler's compositions, "Slavonic Dance," "The Dancing Doll" and "Pale Moon," all played with much success by him, have been selected by Chemet.

E. Chausson's "Poeme" is another beautiful composition that we shall hear from the strings of her favourite violin, a 1731 Gagliano. Having created musical sensations in both the United States and Europe, she now comes to the Orient to give us a real musical treat.

With Anna Seidlova accompanying her at the piano, Miss Chemet will play seven selections. Her programme is divided into two parts with a fifteen minute intermission between them. The selections will be as follows.

## Part I.

1. Concerto in A Minor ... Vivaldi Allegro-Largo-Presto
2. Concerto in F Minor ... Ed. Lalo Andante-Recl. Allegro-Romance, Allegro con fuoco
3. Poeme ..... E. Chausson
4. a) Slavonic Dance ..... Dvorak-Kreisler.
- b) Pale Moon ..... Knight-Logan-Kreisler
- c) Dancing Doll ..... Polidini-Kreisler
- d) Miramar ..... Turina-Chemet

**POLICE DESERTER  
JAILED.**

Went to Father's Death Bed.

**QUESTION OF DUTY.**

"It is essential that these deserters, when arrested, should be severely treated, so as to be made an example to others," remarked Mr. W. Blidmead Thompson, A.S.P., when prosecuting Lai Ting-shum, ex-P.C. C143, before the Police Magistrate, Mr. Wynne-Jones, for desertion from the Hong Kong Police Force since December 28 last year.

Mr. C. Y. Kwan appeared for the defendant, and pleaded guilty. He asked His Worship to deal with the case leniently, in view of the defendant's youth. His reason for desertion was that his father was critically ill in the country, and, as it was a Chinese custom that filial duty should come first, he hurried to his father's bedside. Two weeks after his arrival, his father died. His mother was already dead.

Mr. Thompson, stated that the defendant was sworn in for five years' service on January 29, last year. He was subsequently dismissed from the force. On Monday night, by virtue of a warrant, Detective-Inspector Elston arrested the defendant at 332 Portland Street, Yaumati. Defendant had been on the report several times for trivial offences, such as sleeping on duty, and on July 29 was cautioned against a reduction. At the time he left the force, defendant was on the report twice for not doing duty.

Mr. Kwan said that he had been instructed to express his client's deepest regrets both to the Superintendent and his Worship, for what he had done.

Mr. Thompson interposed to say that there was never difficulty in getting leave, provided the excuse given was genuine.

His Worship pointed out that defendant's duty as a constable came first in this case. Had the defendant made application for leave, he might have taken lenient view of the matter.

Sentence of two months' hard labour was passed.

**SAMPAN CAPSIZES IN HARBOUR.**

(Continued from Page 1.)

The ship was anchored in the Western fairway.

The wind was blowing rather strongly at the time, and the water became choppy. When half way across, a sudden squall caused the junk to capsize, throwing the crew, passengers and their luggage into the water.

The steam launch Choi Lee, which was passing by rendered valuable assistance, succeeding in rescuing all the occupants, save So Ho (56) male, Chun Kwong (36) a female, and So Ho-sak (10) a girl, who are feared to be drowned.

The junk woman, and one of her daughters, named Chan Yau-kam, were later removed to the Kwong Wah Hospital suffering from the effects of immersion. They left hospital in the afternoon, having fully recovered.

**DAIREN CUSTOMS  
SITUATION.**

Britain's Objects Explained.

**SEEKS PROTECTION.**

London, To-day. Replying to a question regarding the Dairen Customs Situation, Foreign Under-Secretary, Capt. Anthony Eden, in the House of Commons to-day, said that after the dismissal of the Japanese Commissioner of Customs for refusing to remit revenues to Shanghai, the Japanese staff had resigned and handed over the Dairen Customs to Manchukuo.

Through an intermediary of the Japanese and British Legations, the Chinese authorities had been informed of the terms of an arrangement providing for the Manchurian quota for foreign obligations secured on Chinese Customs revenues, and for maintenance of integrity of customs administration to which Manchurian authorities might be persuaded to agree. It was still uncertain what attitude the Chinese Government would adopt.

The Minister added that the British Government would continue to work for the security of loans and the integrity of the customs service by such means as were deemed proper, in the circumstances. —British Wireless Service.

**NOTE'S LEGALITY  
QUESTIONED.**

Fisherman Could Not Sign.

**FORGERY HINTED.**

Holding that his client, Ng Koon-tai, a fisherman, could not write, Mr. A. el Arculli, solicitor for the defendant, asserted that the note held by the plaintiff, Lum Sou-hon, junk chandeler, could not have been signed by his client. He pointed out that Ng Koon-tai could only place his thumb print on a bill of sale when he sold a junk.

The fisherman had his junk (No. 508 HA) seized for a debt of \$800 that he is alleged to owe the plaintiff.

Mr. F. C. E. Rendall, council for the plaintiff, asked his client, due to suggestion of possible forgery, whether he had signed the note, and if not, had he seen the defendant sign it. Lum replied that he had, and his brother, acting accountant for the firm, was called to the stand to support his evidence.

Mr. Arculli asked that the court be adjourned until he could complete a survey of all the facts.

**UCHIDA INSTALLED AS  
FOREIGN MINISTER.**

Tokyo, To-day. Count Uchida, was formerly president of the South Manchuria Railway, was installed as Foreign Minister to-day. —Reuter.

General Tsai Ting-kai, Commander of the 19th Route Army, left for Macao yesterday. He spent the day there and returned to Hong Kong this morning. Tomorrow he will go to Amoy.

**BRAWL AT CENTRAL  
MARKET.**

Chinese Stabbed with Penknife.

**SUSPECT ARRESTED.**

A stabbing occurred at the Central Market yesterday, where several folks were arguing over the prices of certain goods. Fung Lam (36) living at First Street, received a wound in the right breast, inflicted by a penknife. His alleged assailant, Cheung Wah, a fok of a fruit stall, was arrested.

Cheung Wah appeared before Mr. Wynne-Jones in Central Police Court this morning. It was stated by the prosecution that the complainant would be confined to hospital for a few days.

The case was fixed for hearing at 11.30 on Saturday morning.

**SHIPPING DISPUTE.**

(Continued from Page 1.)

Last year's working profit was \$82,000 and after placing \$30,000 to the officers' Fund the balance was transferred to depreciation of vessels. Had it not been for the fortunate conditions ruling during the year the company would probably not have been able to provide anything towards depreciation and the officers' Fund would have to be met out of capital. In other words for this Fund to be maintained, it will be at the expense of Capital, which in the end will mean forced Liquidation in which case our ships will be sold and the new owners—if there be any with the existing slump—will engage crews at rates of pay and conditions of service more in keeping to quote Captain Laurenson "with this time of world wide depression."

I was not aware that "leave" is an integral part of an officers pay and if suspended, the officers must as a consequence demand increase pay as compensation" and I am not prepared to admit this. Will Captain Laurenson assure me that all British Officers and Engineers on the China Coast receive home leave conditions, and pensions similar to the Douglas S.S. Company, and if not what compensation do they receive in lieu thereof.

With reference to his statement "that the master and officers of both departments have had their pay reduced to a 1/6 dollar since April 1, 1931, and that leave pay has been temporarily suspended for the last 18 months" will he assure me that no British Officers and Engineers employed on the China Coast receive less remuneration than those in the service of the Douglas Steamship Company.

The earnings of our ship are in local currency, and wages, pensions, and other outgoings should also be in dollars. I understand the officers are engaged locally and whatever facilities were granted when exchange was more favourable, the time has come when the position should be revised if the Company is to carry on.

Yours, etc.,  
N. CROUCHER.  
Hong Kong, July 6, 1932.

SONG OF THE WEST

Always have GARDAN in the house!

In the tropics pain and illness are particularly liable to appear suddenly. In headache, toothache, neuralgia, rheumatism, sciatica, lumbago, muscular pains, and above all in fever and its accompanying symptoms, GARDAN is of definite value.

When you are out of sorts remember:

**GARDAN**  
PAINKILLER AND SOOTHING POTION
